10-Year Limited Warranty

CertainTeed Ceilings Corporation warrants Mineral Fiber, Gypsum and Composite Acoustical Ceiling Panels described above against visible sag, warping, shrinking, buckling, and delamination as a direct result of manufacturing defects for ten (10) years from the date of installation of the ceiling panels. CertainTeed Ceilings panels with BioShield® on the painted surface are also warranted to be free of mold and mildew growth for the warranty period. This limited warranty is subject to the terms and conditions below:

Terms and Conditions

1. The ceiling panels must be installed in accordance with all applicable CertainTeed recommendations in effect at the time of installation, using approved installation procedures described in the Ceiling Systems Handbook published by the Ceilings & Interior Systems Construction Association.
2. The ceiling panels must be installed only in areas where the temperature and humidity conditions do not exceed 104 degrees Fahrenheit (40°C) and 90% relative humidity following installation with the environmental conditions being controlled within those limits. Any deviation from those limits in the building or portions of the building where the ceiling panels are installed shall void the warranty.
3. No water or water vapor from sources including, but not limited to, condensation, leaking pipes and/or ducts or steam must come in contact with the ceiling panels or suspension system.
4. Except for fiberglass insulation installed in accordance with CertainTeed recommendations, the ceiling panels must not be used to support any other material, including, but not limited to, light fixtures or mechanical equipment.
5. Prior to installation, the ceiling panels must be stored in a dry and clean area, protected from possible damage caused by rain, snow, and excessive moisture (including relative humidity above 90%). The ceiling panels must also be protected against possible impacts and abrasions while on the construction site.
6. The plenum space above the ceiling panels must not be used as a duct to supply conditioned air to the building. Also, the plenum shall not be vented to the outside air in such a way as to allow humidity above warranty conditions to exist within the plenum.
7. No applied finishes, including, but not limited to, paint, varnish or other coating, shall be applied to the manufacturer's original finish. In the event of ceiling panel material replacement pursuant to the above terms, the original warranty shall apply to the replacement material and will extend for the balance of the warranty period in effect at the same time the material proved defective. Ceiling panel material shall not be considered defective with respect to color, so long as the color at the time of installation does not vary unreasonably from the material sample.
ANY DEVIATION FROM THE TERMS AND CONDITIONS ABOVE VOIDS THE WARRANTY.

Exclusions

Damage caused by improper maintenance; abuse; fire; exposure to smoke, fumes, chemical vapors, exterior elements, freezing temperatures, and vibrations; and normal wear and tear are not covered by this warranty.

What the Customer Must Do

If you believe the CertainTeed ceiling panels exhibit a manufacturing defect during the warranty period, you must provide written notice to CertainTeed within 30 days after first observing this condition to the following address: CertainTeed Ceilings Corporation, Technical Services Department, 20 Moores Road, Malvern, PA 19355. If upon investigation, CertainTeed finds a manufacturing defect covered under this warranty exists, customer's sole remedy and CertainTeed's sole liability shall be limited to CertainTeed furnishing new ceiling panels of the same or similar type and grade in an equal number to that which is determined to be defective. CertainTeed does not warrant that the replacement ceiling panels will match the exact color of remaining in-place panels. CertainTeed shall not be responsible for any installation or replacement costs.
