

SAFETY DATA SHEET

Section 1: Identification

1.1 Product identifier:

CertainTeed Satin Coat All-Purpose Compound
CertainTeed Spanish-Tex Spray Texture

1.2 Recommended Uses:

Drywall finishing

Restrictions on use: None identified

1.3 Supplier:

CertainTeed Gypsum, Inc.
20 Moores Road
Malvern, PA 19355
Web Site: www.certainteed.com

1.4 Emergency telephone number:

In case of an emergency call
USA: 1-888-255-3924 (24 hours)

Section 2: Hazards Identification

2.1 Classification:

according to US Hazard Communication Standard (HCS 2012)

Specific Target Organ Toxicity, Repeated Exposure Cat. 1; H372 (inhalation)

Carcinogenicity Cat. 1A; H350 (inhalation)

2.2 Label elements:

Danger

Causes damage to lungs through prolonged or repeated exposure by inhalation.

May cause cancer by inhalation.

Prevention

Obtain special instructions before use.

Do not handle until all safety precautions have been read and understood.

Do not breathe dust.

Wash hands and exposed skin thoroughly after handling.

Do not eat drink or smoke when using this product.

Wear protective gloves and safety glasses or goggles.

Response

If exposed or concerned: Get medical advice.

Storage

Store locked up.

Disposal

Dispose of contents and containers in accordance with local, regional and national regulations.

2.3 Other hazards:

Exposures to dusts may cause irritation to the eyes and upper respiratory tract.

SAFETY DATA SHEET

Section 3: Composition/Information on Ingredients

<u>Chemical Name</u>	<u>CAS RN®</u>	<u>Wt.%</u>
Limestone	1317-65-3	60 - 90
Mica	12001-26-2	10 - 20
Kaolin clay	1332-58-7	< 7
Talc	14807-96-6	5 - 10
Attapulgit (Palygorskite)	12174-11-7	< 5
Titanium dioxide	13463-67-7	< 2
Total Crystalline silica (Quartz) – naturally occurring contaminant in earth minerals Limestone, clay and talc.	14808-60-7	1 - 5

Section 4: First-Aid Measures

4.1 Description of first-aid measures:

Inhalation: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. If exposed or concerned: Get medical advice.

Eye Contact: If in eyes: rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If irritation persists get medical attention.

Skin Contact: If on skin, wash with plenty of soap and water. If skin irritation or rash occurs get medical advice. Take off contaminated clothing and wash it before reuse.

Ingestion: If swallowed, call a POISON CENTER or doctor. Never give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Have victim rinse mouth thoroughly with water. Do not induce vomiting.

4.2 Most important symptoms / effects acute and delayed:

Inhalation: Exposures to airborne dust may cause irritation to the upper respiratory tract; symptoms of exposure may include sneezing, coughing and sore throat.

Prolonged or repeated exposure to fine airborne crystalline silica dust may cause severe scarring of the lungs, a disease called silicosis. Symptoms of silicosis include cough, mucous production, shortness of breath upon exertion. The symptoms of silicosis develop following long-term exposures to airborne dusts containing silica. May cause lung cancer by inhalation.

Eye Contact: Dust particles may cause irritation as an abrasive in the eye.

Skin Contact: Prolonged skin contact may be abrasive to the skin.

Ingestion: Swallowing is not expected under normal conditions of use. If swallowed, may cause gastrointestinal discomfort.

4.3 Indication of any immediate medical attention and special treatment needed:

Not applicable

Section 5: Fire-fighting Measures

5.1 Extinguishing media:

Use water and other extinguishing media appropriate to the surrounding fire conditions.

5.2 Specific hazards arising from the product:

Product is not flammable and does not support combustion.

Under fire conditions product may decompose into sulfur oxides, calcium oxide and carbon dioxide at very high temperatures (>800°C / 1475°F).

5.3 Special protective equipment and precautions for fire-fighters:

As for any fire, evacuate the area and fight the fire from a safe distance. Firefighters must wear full protective equipment including self-contained breathing apparatus with chemical protection clothing when firefighters are exposed to decomposition products from this material.

SAFETY DATA SHEET

Section 6: Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures:

Wear adequate personal protective equipment, including an appropriate respirator as indicated in Section 8. Isolate spill area, preventing entry by unauthorized persons. Ventilate the spill area if airborne dust is present.

6.2 Environmental precautions:

Prevent releases into the environment.

6.3 Methods and material for containment and cleaning up:

Use methods that avoid raising dust in the air. Scoop or shovel spilled material or vacuum dust with equipment fitted with a HEPA filter and place in a closed, labelled waste container. Small spills may be picked up with a damp cloth or mop.

Section 7: Handling and Storage

7.1 Precautions for safe handling:

- Obtain special instructions before use.
- Do not handle until all safety precautions have been read and understood.
- Do not breathe airborne dusts.
- Minimize dust generation and accumulation.
- Wear protective goggles and gloves.
- In workplaces where occupational exposure limits are exceeded, wear appropriate respiratory protection. (See Section 8).
- Read the label and follow the directions for mixing.
- Wash hands and exposed skin thoroughly after handling.
- Do not eat, drink or smoke in the workplace where this product is handled.

7.2 Conditions for safe storage, including any incompatibilities:

- Store in dry conditions and protected from weather.
- Protect from moisture and humidity.
- Keep out of reach of children.

Section 8: Exposure Controls / Personal Protection

8.1 Control parameters:

Occupational Exposure Limits: Consult local authorities for acceptable exposure limits.

Chemical name	ACGIH® TLV®	U.S. OSHA PEL
Limestone	Not established	15 mg/m ³ (total dust) 5 mg/m ³ (respirable fraction)
Mica	3 mg/m ³ (respirable)	20 mppcf* (less than 1% crystalline silica)
Kaolin clay	2 mg/m ³ (respirable)	15 mg/m ³ (total dust) 5 mg/m ³ (respirable fraction)
Talc	2 mg/m ³ (respirable)	20 mppcf* (less than 1% crystalline silica)
Attapulgate Palygorskite fibres (fibers > 5 µm)	Not established	Not established
Titanium dioxide	10 mg/m ³	15 mg/m ³ (total dust)
Respirable Crystalline silica	0.025 mg/m ³	25 µg/m ³ (8 hour TWA) 29 CFR 1926.1153

*mppcf: Million particles per cubic foot of air.

SAFETY DATA SHEET

8.2 Exposure controls:

Engineering Controls: General ventilation is adequate for application of product in its original form. If airborne particulates are generated, monitor dust concentrations in air and provide local exhaust ventilation when any exposure guideline is exceeded.

If engineering controls and work practices are not effective in controlling exposure to this material or if adverse health symptoms are experienced, then wear suitable personal protection equipment including approved respiratory protection. Have appropriate equipment available for use in emergencies such as spills or fire.

8.3 Individual Protection Measures:

Eye/Face Protection: Wear safety goggles.

Skin Protection: Wear protective gloves. Launder contaminated clothing before re-wearing, or discard.

Respiratory Protection: When dust concentrations in air exceed the occupational exposure guidelines, always take the following precautions:

- Wear a NIOSH approved dust respirator.
- Maintain adequate ventilation and air circulation.
- Warn others in the area.

NIOSH recommendations for Crystalline silica (respirable dust); concentrations in air:

UP TO 0.5 mg/m³: Air-purifying respirator with high-efficiency particulate filter(s).

UP TO 1.25 mg/m³: Powered air-purifying respirator with high-efficiency particulate filter; or SAR operated in a continuous-flow mode.

UP TO 2.5 mg/m³: Full-facepiece air-purifying respirator with high-efficiency particulate filter(s); or powered air-purifying respirator with tight-fitting facepiece and high-efficiency particulate filter.

UP TO 25 mg/m³ Positive pressure SAR.

A respiratory protection program that meets the regulatory requirement, such as OSHA's 29 CFR 1910.134, ANSI Z88.2, must be followed whenever workplace conditions warrant a respirator's use.

Other Protection: Have a safety shower and eyewash fountain readily available in the work area.

Section 9: Physical and Chemical Properties

9.1 Information on basic physical and chemical properties:

Appearance:	Powdered solid; white to light grey powder
Odor:	Odorless
Odor threshold:	Not applicable
pH:	8-9(aqueous slurry)
Melting point/freezing point:	Not applicable
Initial boiling point and boiling range:	Not applicable
Flash point:	Not applicable
Flammability:	Not flammable or combustible
Auto-ignition temperature:	Not available
Upper/lower flammability or explosive limits:	Not applicable
Evaporation rate:	Not applicable
Vapor pressure:	Not applicable
Vapor density:	Not applicable
Relative density:	0.6 – 1.0 (water=1)
Solubility (ies):	Low solubility in water
Partition coefficient (n-octanol/water):	Not applicable
Decomposition temperature:	825°C (1517°F) for limestone
Viscosity:	Not applicable

Section 10: Stability and Reactivity

10.1 Reactivity:

Not classified for reactivity hazards. Mixing with water generates heat.

10.2 Chemical Stability:

Stable at normal ambient and anticipated storage and handling conditions.

SAFETY DATA SHEET

10.3 Possibility of Hazardous Reactions:

None known.

10.4 Conditions to Avoid:

Avoid unintended contact with water/moisture.

10.5 Incompatible Materials:

Strong acids - Incompatible with strong acids (HF); may react vigorously. Reaction with acids generates carbon dioxide gas.

10.6 Hazardous Decomposition Products:

Calcium oxide may form if product is exposed to extreme heat 825°C (1517°F).

Section 11: Toxicological Information

11.1 Information on toxicological effects:

Likely routes of exposure

Inhalation; Skin contact; Eye contact.

Acute toxicity

Inhalation: Data not available. None of the component substances are toxic or harmful by inhalation.

Ingestion: Data not available. None of the component substances are toxic or harmful if swallowed.

Skin: Not absorbed through the skin.

Acute toxicity data:

Acute toxicity estimate (oral) of the mixture: >6400 mg/kg (rat) based on data for the component substances.
Low dermal and inhalation acute toxicity based on evidence from animal tests.

<u>Chemical name</u>	<u>LD₅₀ Oral</u> <u>(mg/kg)</u>	<u>LD₅₀ Dermal</u> <u>(mg/kg)</u>	<u>LC₅₀ Inhalation</u> <u>(ppm, 4 hrs.)</u>
Limestone	6450 (rat)	Not available	Not available

Skin corrosion / irritation

Data not available. May cause skin dryness and abrasive irritation in contact with the skin.

Serious eye damage / irritation

Particulates in the eye may cause irritation by mechanical action.

STOT (Specific Target Organ Toxicity) – Single exposure

Data not available

STOT (Specific Target Organ Toxicity) – Repeated exposure

Prolonged and repeated breathing of high concentrations of dusts may cause pulmonary fibrosis and silicosis. Silicosis can develop following years of repeated inhalation of airborne dust containing respirable crystalline silica. Silicosis is characterized by lung lesions. Symptoms of silicosis include shortness of breath and cough, decreased lung function and weakness.

There is limited evidence of kidney disease in humans following occupational exposures to crystalline silica.

Aspiration hazard

Does not meet criteria for classification for aspiration toxicity.

Sensitization - respiratory and/or skin

Not known to be a skin or respiratory sensitizer.

Carcinogenicity

Natural mineral Limestone may contain Crystalline Silica as a naturally occurring impurity. IARC Crystalline Silica in the form of quartz or cristobalite from occupational sources should be classified as carcinogenic to humans (Group 1).

ACGIH® in the form of quartz or cristobalite as A2: Suspected human carcinogen.

Crystalline silica, respirable size, is listed in the Report on Carcinogens by NTP (National Toxicology Program) as Known to be a human carcinogen.

SAFETY DATA SHEET

11.1 Information on toxicological effects (continued):				
<u>Chemical name</u>	<u>IARC</u>	<u>ACGIH®</u>	<u>NTP</u>	<u>OSHA</u> 29 CFR part 1910, Subpart Z
Crystalline silica	Group 1	A2	Known	Respirable Crystalline silica
Palygorskite fibers (Attapulgite) short fibers < 5 µm	Group 3	Not listed	Not listed	Not listed
Palygorskite fibers (Attapulgite) long fibers > 5 µm	Group 2B	Not listed	Not listed	Not listed
Titanium dioxide	Group 2B	A4	Not listed	Not listed

Reproductive toxicity

Data not available

Germ cell mutagenicity

Data not available

Interactive effects

Tobacco smoking in combination with long-term high dust exposures may increase both smoking and dust-related pulmonary health problems. Simultaneous exposure to known carcinogens can increase the carcinogenicity of crystalline silica. Persons who develop silicosis have a higher risk of contracting tuberculosis if exposed to the tuberculosis bacteria.

Section 12: Ecological Information

12.1 Toxicity:

Ecotoxicity data are not available. Composed of naturally occurring earth minerals.

12.2 Persistence and degradability:

Not available

12.3 Bioaccumulative potential:

Not available

12.4 Mobility in soil:

Not available

12.5 Other adverse effects:

Not available

Section 13: Disposal Considerations

13.1 Disposal methods:

Do NOT discharge into any sewers, on the ground or into any body of water. Store material for disposal as indicated in Section 7 Handling and Storage.

The required hazard evaluation of the waste and compliance with the applicable hazardous waste laws are the responsibility of the user. Dispose of contents/container in accordance with local, regional, national and international regulations.

Section 14: Transport Information

14.1 UN Number

Not regulated by international transport regulations (IMDG, UN Model Regulations).

14.2 UN proper shipping name

Not applicable

14.3 Transport hazard class(es)

Not applicable

14.4 Packing group

Not applicable

14.5 Environmental hazards

Not available

SAFETY DATA SHEET

14.6 Special precautions for user

Not available

14.7 U.S. Hazardous Materials Regulation (DOT 49CFR):

Not regulated

14.8 Canada Transportation of Dangerous Goods (TDG) Regulations:

Not regulated

Section 15: Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

Analytical results for hazardous substances:

No Asbestos fibers detected in Asbestos fibers analysis by polarized light microscopy (EPA/600/R-93/116 & EPA/600/M4-82-020)

USA

TSCA Status:

Substances are listed on the TSCA inventory or are exempt.

California Prop 65:

WARNING: This product can expose you to chemicals including Crystalline silica which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

Canada

NSNR Status:

Component substances are listed on the on the DSL or are exempt.

Section 16: Other Information

Revision date:

September 12, 2018

Revision details:

Previous version: August 5, 2015
Section 1, supplier contact information.
Section 15, added California Prop 65 warning text.
