

Excellent sag resistance, easily handling heavy-textured, water-based paints and unsupported insulation for keeping up with evolving building codes.

Easi-Lite®

Interior Ceiling Gypsum Board

Light. Sturdy. Versatile.

The preferred choice for standard residential *and* commercial ceiling applications.

Lightweight, but built for heavy duty. Sag-resistant additives compose its gypsum core. It's the ideal choice for new construction, as well as renovations over wood or steel framing.

- Up to 30% lighter than standard interior ceiling boards
- Easily paintable with traditional primer and paint
- Ideal solution for ceilings with 24" (610 mm) spacing (perpendicular to framing)
- Specially formulated for ceiling applications
- No wavy edges, warps, bows, or imperfections
- Standard tapered, conventional edges provide smooth, sturdy joints and a uniform, flat appearance
- Easy score-and-snap cutting — no need for special tools
- Rapid screw or nail attachment
