Trust your home to LANDMARK® ClimateFlex®

Few things in this world are as precious as the place that you call home. It is much more than just a house. It's the foundation from which you build your life.

That's why having a roof that gives your home long-lasting curb appeal and protection from the elements is so important. At CertainTeed, our benchmark for success is our customers' total peace of mind. And we wouldn't have it any other way.

Our product portfolio offers the widest variety of design and color options in the industry. It's no wonder that more than a million homeowners across North America choose CertainTeed each year.

And the job doesn't stop once the roof goes on. Every CertainTeed product is backed by our industry-leading manufacturer's warranty, allowing you to rest confidently and comfortably for years to come.

Our dedication to making the highest quality roofing systems continues to earn the respect of top building professionals.

Technology that protects the beauty of your roof and strengthens its performance.

ClimateFlex[®]

Outstanding durability. Featuring the latest advances in polymer science, CertainTeed's ClimateFlex technology works at a molecular level to make shingles strong and pliable. The rubber-like qualities of the ClimateFlex asphalt formula provides each shingle with improved hail resistance, cold-weather flexibility, and granule adhesion.

With NorthGate ClimateFlex, you give your home the curb appeal of designer roofing and the protective resilience of polymer-modified asphalt, all backed by CertainTeed's manufacturer warranty - the most comprehensive and valued warranty in the industry.

 POLYMER-BLENDED ASPHALT Deeper-embedded granules with greater adhesion vs. standard asphalt, helping prevent UV damage	 ENHANCED PROTECTION Highest industry-rated impact protection against hail & other weather-related impacts	 EXTREME ENDURANCE Allows for easier cold-weather installation and greater weathering endurance than standard asphalt shingles	 INVESTING IN THE LONG-TERM Enhanced leak protection and peace of mind with a Lifetime Limited Warranty, which may qualify your home for insurance discounts

NailTrak[®]

Fast, Accurate, Visible

1-1/2" extra-wide nailing area improves efficiency and accuracy

QuadraBond[®]

Advanced Layering

An industry-leading four strips of our Quadra-Bond adhesive for durability

WIDER, SAFER, PROVEN

For more than fifteen years, contractors have used NailTrak to install shingles with speed, accuracy, and confidence. With a nailing area three times wider than that of a typical laminate shingle, NailTrak helps ensure each shingle is installed per manufacturer's specifications.

NorthGate ClimateFlex shingles also feature CertainTeed's specially formulated Quadra-Bond[®]

adhesive, which laminates shingle layers at an industry-leading four points for superior resistance to delamination.

Together, our NailTrak and Quadra-Bond technologies deliver the strength and durability that gives homeowners greater peace of mind that their home and possessions are protected.

StreakFighter[®]

Algae Resistance

HELP MAINTAIN THE NATURAL BEAUTY OF YOUR ROOF

Those streaks you see on other roofs in your neighborhood? That's algae, and it's a common eyesore on roofing throughout North America.

CertainTeed's StreakFighter technology uses the natural anti-algae properties of copper-containing surface granules to help prevent algae from forming on shingles, reducing the need for costly and time-consuming algae cleaning and maintenance while helping your roof maintain its curb appeal for years to come.

CertaSeal[™]

Uplift Protection

CertaSeal[™] is a fast-activating modified asphalt sealant with a 20-year record of proven performance. Designed to seal shingles together upon installation, it protects roofs from wind uplift and shingle blow-off so that homes stay safe and dry.

It's also engineered to remain flexible after installation, unlike harder sealants that can dry out and crack over time.

Strength with Style

LANDMARK® **ClimateFlex**®

SPECIFICATIONS

- Two-piece laminated fiberglass-based construction
- Classic shades and dimensionality of natural wood or slate

(For U.S. building code compliance, see product specification sheets.)

CERTAINTEED PRODUCTS ARE TESTED TO ENSURE THE HIGHEST QUALITY AND COMPLY WITH THE FOLLOWING INDUSTRY STANDARDS:

IMPACT RESISTANCE

- ✓ UL Classified to UL 2218 Class 4 Impact Resistance

FIRE RESISTANCE

- ✓ UL Listed to UL 790 Class A
- ✓ Meets ASTM D3018 Type 1

WIND RESISTANCE

- ✓ UL Classified to ASTM D7158 Class H
- ✓ UL Classified to ASTM D3161 Class F
- ✓ Meets TDI Windstorm Requirements

TEAR RESISTANCE

- ✓ UL Classified to ASTM D3462

WARRANTY

- ✓ Lifetime limited transferable warranty against manufacturing defects on residential applications
- ✓ 50-year limited transferable warranty against manufacturing defects on group-owned or commercial applications
- ✓ 10-year StreakFighter® algae-resistance warranty
- ✓ 10-year SureStart™ protection
- ✓ 15-year 110 mph wind-resistance warranty
- ✓ Wind warranty upgrade to 130 mph available. CertainTeed starter and CertainTeed hip and ridge required

See actual warranty for specific details and limitations.

Add a Little Accent to Your Roof

CertainTeed offers Shadow Ridge® ClimateFlex, a Class 4 impact resistant accessory shingle used for capping hips and ridges of your roof. It is the perfect finishing touch, offering blended color and low-profile design.

Color Companion Products for Flat Roof Areas

With CertainTeed Flintlastic® SA, you can coordinate flat roof areas like carports, canopies and porches with your main roof. Flintlastic SA is a self-adhering low slope roofing product available in colors that complement some of the most popular CertainTeed shingles.

Integrity Roof System™

A COMPLETE APPROACH TO LONG LASTING BEAUTY AND PERFORMANCE

With as much care as you take in selecting the right contractor, choosing the right roof system is equally as important. A CertainTeed Integrity Roof System combines key elements that help ensure you have a well-built roof for long-lasting performance.

1. Waterproofing Underlayment

The first step in your defense against the elements. Self-adhering underlayment is installed at vulnerable areas of your roof to help prevent leaks from wind-driven rain and ice dams.

2. Water-Resistant Underlayment

Provides a protective layer over the roof deck and acts as a secondary barrier against leaks.

3. Starter Shingles

Starter Shingles are the first course of shingles that are installed and designed to work in tandem with the roof shingles above for optimal shingle sealing and performance.

4. Shingles

Choose from a variety of Good-Better-Best styles to complement any roof design and fit your budget.

5. Hip & Ridge Caps

Available in numerous profiles, these accessories are used on the roof's hip and ridge lines for a distinctive finishing touch to your new roof.

6. Ventilation

A roof that breathes is shown to perform better and last longer. Ridge Vents, in combination with Intake Vents, allow air to flow on the underside of your roof deck, keeping the attic cooler in the summer and drier in the winter.
