

COORDINATING SMOOTH CEILINGS  
TO SUIT ANY ACOUSTIC SCENARIO

▀ The Symphony®  
Collection

# Targeted acoustics: performance for a variety of spaces

The Symphony® collection is a comprehensive line of coordinating durable acoustic solutions with a consistent look, balancing acoustic performance, design flexibility and budget control. Together with the coordinating Adagio® line, Symphony lets you maintain a consistent look while meeting diverse performance requirements.

## ALL SYMPHONY AND ADAGIO CEILINGS

- **The most popular look in suspended ceilings** — Smooth, bright white surface available in trim, reveal, and narrow reveal edge details
- **A complete range of acoustic options** — Choose the level of sound absorption, noise blocking, or combined capabilities that fits the acoustic requirements of the individual space
- **High 90% light reflectance** — Enhances conventional lighting to reduce energy use, fatigue and eye strain
- **A highly durable surface** — Puncture and scratch resistant, and chemically cleanable up to 1,000+ washes, our panels are tough enough to resist damage and stay looking great before, during and after installation
- **Low VOC and low particle emissions** — Select products are even suited to clean room environments

# Choose the right Symphony® Panels for your acoustic priority

Balanced sound absorption and noise blocking

## **SYMPHONY *m***

- Standard mineral fiber panels including High NRC & High CAC options for excellent acoustic performance
- New High NRC 0.85 panels offer enhanced sound absorption with moderate noise blocking
- Certified clean room component to ISO Class 4 (the highest among comparable products)

### **APPLICATIONS:**

Offices, conference rooms, classrooms, libraries, doctor's offices, exam/treatment rooms, patient rooms

Extreme cleanability and performance for demanding healthcare environments

## **SYMPHONY *m* RX & SYMPHONY *f* RX**

- Acoustic performance plus superior stain resistance and water repellency
- Cleanable with most sanitizing chemicals and wash-tested to 2,000+ cycles
- Exceeds FGI guidelines for cleanability and acoustic performance in most healthcare applications
- Suited as clean room component to ISO Class 3 (highest among comparable products)

### **APPLICATIONS:**

Patient rooms, emergency rooms, treatment rooms, semi-restricted surgical areas, kitchen/food prep areas

Highest combination of sound absorption and noise blocking

## **ADAGIO®, ADAGIO HIGH CAC**

- Unique composite panel with encapsulated fiberglass provides NRC 0.90 and CAC 36-38 for premium acoustic comfort
- High CAC panels provide NRC 0.80 and maximum noise blocking with CAC 40-42
- Can enhance space privacy compliance assists with HIPAA requirements in healthcare

### **APPLICATIONS:**

Offices, conference rooms, music rooms exam/treatment rooms, patient rooms

Maximum sound absorption

## **SYMPHONY *f***

- Fiberglass panels offer maximum NRC 0.90-1.00 and optional CAC foil backing for minimal sound blocking
- Certified clean room component to ISO Class 4 (the highest among comparable products)

### **APPLICATIONS:**

Open plan offices, computer rooms, libraries, waiting rooms, nurses' stations

# Declare.

Symphony *m* and  
Symphony *m* Rx are  
**Declare Red List Free**

**SMARTFIT PANELS**

Available in the Symphony *f* and Symphony *m* lines, this series of popular panel sizes is for use alongside linear lighting, ventilation and utility areas.

Pair with the SmartFit Yoke to reduce installation time by eliminating on-site fabrication and using standard ceiling components.

Put together the perfect combination of Symphony panels for your next project.
